EXPERIENCE

Louisville Gas & Electric, LG&E / Louisville, KY

05/2018 Present

.NET & Mobile Application Development

Job Duties
• Developed in Agile and Waterfall Development teams.
• Developed applications by collaborating with Business Analysts on system requirements and user stories.
• Developed responsive mobile applications using skills in Angular, HTML, CSS, JavaScript, TypeScript, C#, Xcode, Ionic, MS SQL Server, and Cordova.
• Created and integrated APIs into mobile applications
• Provided continued support throughout SDLC.

Projects
• Helped write and deploy LG&E's Training Tracker™ application that allows employees to track completed training and courses.
• Created a multimedia publishing application used to document company meter assets. Will enable the company to move towards replacing old assets with digital meters.
• Contributed to the integration of the app that manages emergency mutual assistance personnel during storm recovery operations.
• Brought in on a vendor document management app to work on the model, view, and UI/UX issues. Was able to help the team meet requirements for deployment within the deadline.

United States Navy / Pensacola, FL

05/2015 11/2017
